

10 Ball Break Pot Challenge Rules

Rack the balls with 1, 2 & 3 in the corners and the 10 ball in the middle.

Game is over if you scratch on the break or break dry.

During your break, if 4 balls do not hit a rail it is a foul and you lose.

10 breaks do not count, spot the 10 ball.

If you make a ball on the break and do not scratch, you continue play making balls in numerical order. You can combo a ball in with the lowest number on the table and keep going. Except for the 10 ball. 10 ball is last.

If you miss a ball you forfeit all money won before that ball.

You can quit at anytime and take what you have already won.

GOOD LUCK!
